landing, and the side flares make up their basic three-part structure. Also, people with vision disabilities can access pavements using guiding blocks provided in all units, schools, and faculties.

All faculties have a certain sign for disabled people in the parking area. The signs marked the place where the disabled people have their own parking areas, so they do not have to park their vehicle in the area that is difficult to access. Figure 5 shows examples of accessible parking for disabled people at Vocational School and Faculty of Agriculture.

Figure 26 Toilet for Disabled People (People with Special Needs) at Faculty of Mathematics and Natural Sciences

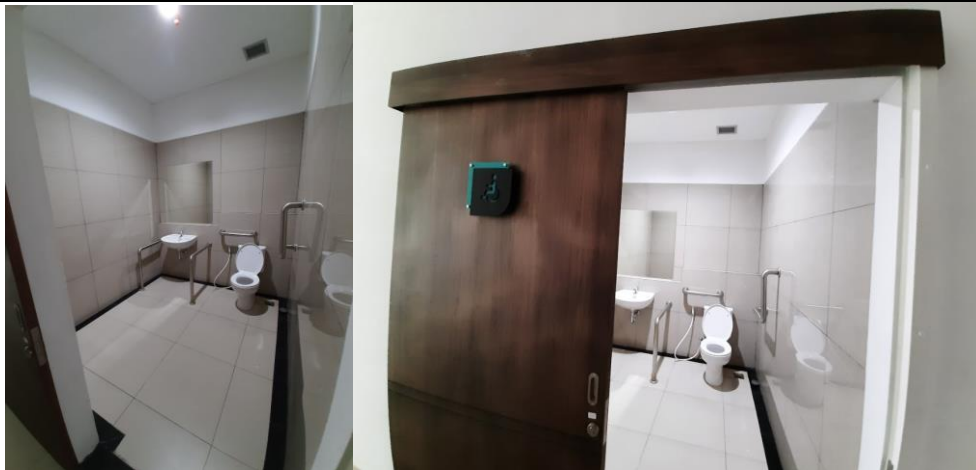

Figure 27 Toilet for Disabled People (People with Special Needs) at Vocational School

Description:

Accessible toilet for disabled people is designed with some grip on the wall. The grip is aimed to facilitate disabled people, thus they can use the toilet much easier.

[1] Setting and Infrastructure (SI)

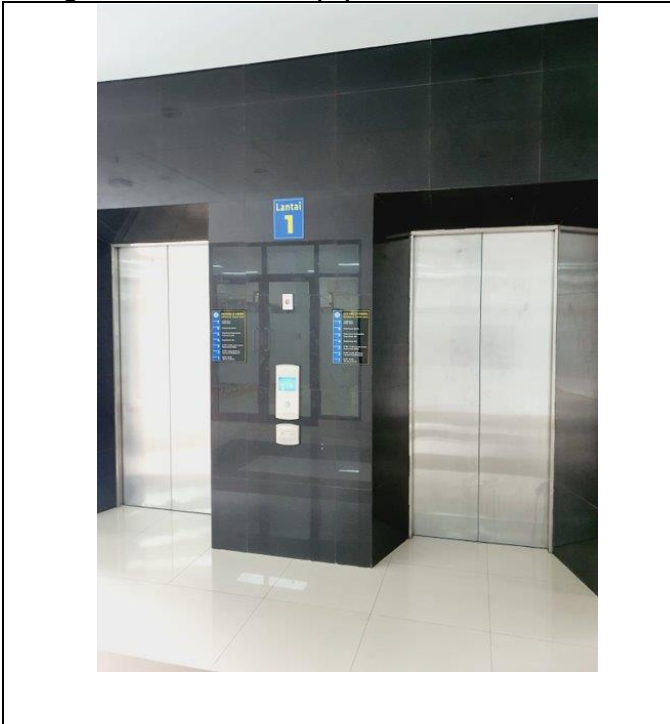

Figure 28 Lift for Disabled People (People with Special Needs) at Faculty of Mathematics and natural Sciences

Figure 29 Lift for Disabled People (People with Special Needs) at Faculty of Agriculture and Political Sciences

Description:

Some buildings in UGM with more than 2 floors have elevators to take people from one floor to another. Those buildings not only provide regular elevators for the public but also a separate elevator for disabled people. These elevators are larger than the usual size so people with a wheelchair can fit in.

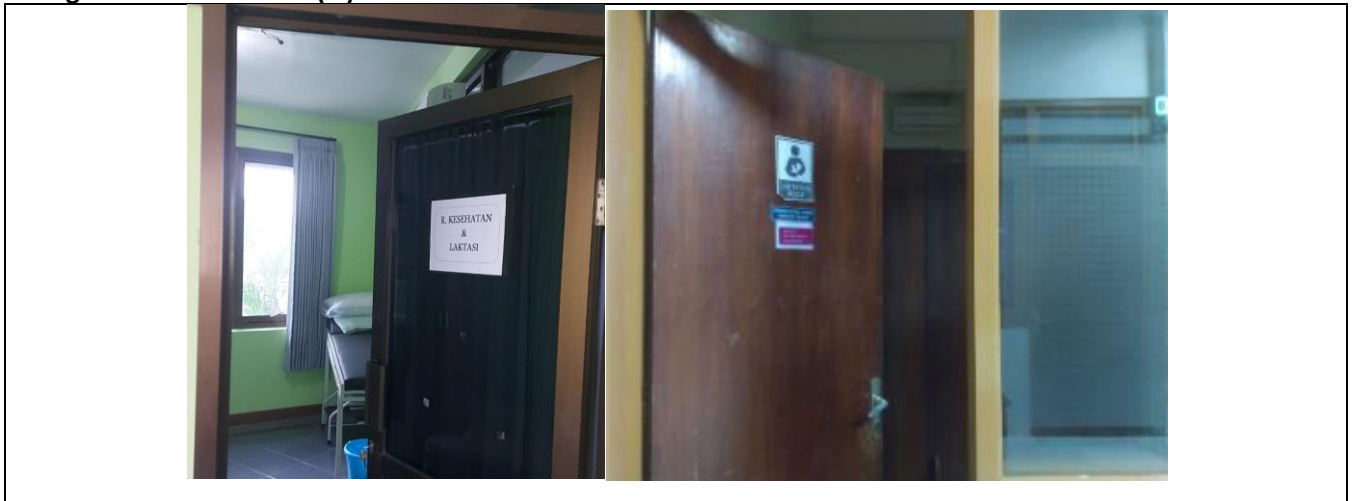

Figure 34 Lactation Room at Faculty of Medicine, Public Health, and Nursing

Description:

Several faculties and offices in Universitas Gadjah Mada also provide lactation rooms. The lactation room is a private room for staff who are breastfeeding, thus they can pump breast milk in private.
